

Removing and Replacing Screens

Replacing my Screen:

1. Working with the 2 top corners of your screen, place screen at an angle. **(Fig 3)**
2. Once corners are in, slide screen to a straight up and down position,
3. Push up on screen and pop bottom in.
4. Adjust screen as needed.

Removing my Screen:

1. Standing outside looking at the window.
2. Compress screen to the left and then upwards. **(Fig 1)**
3. This will expose the bottom corners of the screen. **(Fig 2)**
4. Push screen the rest of the way up and remove from frame.

Removing and Replacing Pivot Bars

1. Remove sash from opening and turn upside down
2. Locate 2 screws & loosen
3. Remove pivot bar
4. Replace with new pivot bar
5. Reinstall sash.
